STORM WATER DRAIN CONCERNS

"Keep it Clean, Drains to Stream"

When washing your car, use environmentally friendly products and consider washing on grass, gravel, or a porous area to prevent wash water from reaching storm drains that lead directly to rivers or streams; litter on drains can cause flooding and washed-away debris in waterways harms drinking water, recreation, and wildlife, so dispose of trash properly and pick up litter to safeguard the environment; additionally, rain gardens capture rainwater runoff from lawns and driveways, allowing it to soak into the ground rather than flowing into storm drains and polluting nearby waterways.

Please see our Website for more Information about Storm Water Drainage:

www.cityofbogart.com

Be a good Neighbor: 

Pet Clean-up: Per the Code of Ordinances Section 30-106: Animals and Fowl are not permitted to be at large to cause injury or annoyance. Please clean up after your pets.

Lawn Maintenance: Per the Code of Ordinances Section 33-105, "the accumulation of weeds, trash, filth, and other unsanitary or unsafe conditions shall create a public health hazard or a general nuisance to those persons residing in the vicinity."

Mayors Moment:

"A smile is worth a million dollars and common courtesy doesn't cost a dime!" *C.B. Guest Jr.*
